Re: Asbestos Abatement Project Completion

Dr. Baughman:

Alpine has been hired by the Niskayuna Central School District to monitor the asbestos removal performed by various contractors this past summer at the following schools: Birchwood Elementary, Craig Elementary, Glencliff Elementary, Hillside Elementary, Rosendale Elementary, Van Antwerp Middle School, and the Niskayuna High School. Alpine's scope of work included performing air monitoring to support asbestos abatement, monitoring asbestos abatement work for regulatory compliance, and performing visual inspections to determine the completeness of removal.

All work performed under our oversight has been performed in a manner consistent with both New York State and U.S. Environmental Protection Agency regulations pertaining to asbestos abatement work in K-12 schools. All air sampling performed at the Niskayuna Central School District Project met the criteria set forth in State and Federal regulations pertaining to this work.

Do not hesitate to contact me with any questions at (518) 453-0146 ext. 313.

Sincerely,
Alpine Environmental Services, Inc.
