A Guide to Taking Care Of and Using Your NCSD Chromebook

1. Receiving Your Chromebook & Over the Summer

1.1 Receiving your Chromebook

Parents and students must sign and return the Chromebook Loan Agreement before the Chromebook can be issued. Chromebooks will be distributed to students during the first week of school.

If a student enters the NCSD after the start of the school year, he or she will be given this Handbook and Chromebook Loan Agreement upon registering the student. If a student transfers out of the district at any time, they will be required to return the Chromebook and components before records will be released to their new school district.

1.2 Over the Summer

Chromebooks should be kept by students for use in academic endeavors over the summer. If a parent would prefer that the Chromebook be stored at school for the summer, they must notify the building principal, who will make arrangements for it to be secured on the last day of the school year.

2. Taking Care of Your Chromebook

Students are responsible for the general care of the Chromebook they have been issued by the school. Students who have a Chromebook that is broken or not working properly must notify his or her teacher(s) immediately, and their device will be delivered to the Technology Department for an evaluation.

The guidelines below should be followed:

- Prevent damage by carefully inserting cords and cables into the Chromebook
- Chromebooks may be decorated by students, but any decorations must be school-appropriate and not interfere with operation or service of the device.
- Chromebooks must never be left in an unlocked locker, unlocked car or any unsupervised area.
- Students are responsible for keeping their Chromebook's battery charged for school each day. Chromebooks should be plugged in each night prior to bedtime to allow for a full charge in the morning.

2.1 Carrying Chromebooks

The protective cases provided with the Chromebooks have sufficient padding to protect the Chromebook from normal wear and tear and provide a suitable means for carrying the device to school.

The guidelines below should be followed:

- Chromebooks should always be carried within the NCSD-provided protective case.

- When carrying the Chromebook in another case/backpack, take caution when also carrying other items (notebooks, books, lunch box, etc.) to avoid putting too much pressure and weight on the Chromebook screen. The screen is delicate and can crack easily.
- Use caution when placing Chromebooks into bags, to ensure that writing utensils, earbuds, etc., do not slip between the screen and keyboard.

2.2 Screen Care

The Chromebook screen can be damaged if subjected to rough treatment. The screens are particularly sensitive to damage from excessive pressure on them.

- Do not lean on the top of the Chromebook when it is closed.
- Do not place anything on the Chromebook that could put pressure on the screen.
- Do not place anything in the carrying case that will press against the screen.
- Clean the screen with microfiber, anti-static or other soft, dry cloth (no cleansers).
- Do not "bump" the Chromebook against lockers, walls, car doors, floors, etc., as it will eventually break the screen.

2.3 Chromebook Identification

Student Chromebooks will be labeled in the manner specified by the school. Chromebooks can be identified in the following ways:

- Record of serial number
- NCS D label with student name

2.4 Storing Your Chromebook

When students are not using their Chromebooks, they should be stored in their LOCKED lockers. Nothing should be placed on top of the Chromebook when it is being stored in the locker. Students are encouraged to take their Chromebooks home every day after school, regardless of whether or not they are needed. Chromebooks should not be stored in a vehicle due to temperature changes. If a student needs a secure place to store their Chromebook, they may check it in for storage with their teacher or the middle school main office.

2.5 Chromebooks Left in Unsupervised Areas

Under no circumstances should Chromebooks be left in unsupervised areas. Unsupervised areas include, but are not limited to, the school grounds and campus, the lunchroom, computer labs, locker rooms, unlocked classrooms and hallways.

Any Chromebook left in these areas is in danger of being stolen. If a Chromebook is found in an unsupervised area, it will be taken to the main office.

3. Using Your Chromebook at School

Chromebooks are intended for use at school each day. In addition to teacher expectations for Chromebook use, school messages, announcements, calendars and schedules may be accessed 24/7 using the Chromebook. Students are responsible for bringing their Chromebook to all classes, unless specifically instructed not to do so by their teacher.

3.1 Chromebooks Left at Home

If a student leaves their Chromebook at home, loaner devices may be issued to students for the course of the school day.

3.2 Chromebook Undergoing Repair

Loaner devices (Chromebook or other device) may be issued to students when they leave their Chromebooks for repair with the Technology Department.

3.3 Charging Your Chromebook's Battery

Chromebooks must be brought to school each day in fully-charged condition. Students are responsible for charging their Chromebooks each evening.

3.4 Screensavers/Background Photos

- Inappropriate media may not be used as a screensaver or background photo.
- Presence of guns, weapons, pornographic materials, inappropriate language, alcohol, drug, gang-related symbols, or pictures, etc., will result in disciplinary actions.
- Passwords should not be displayed in screensavers or background photos.

3.5 Sound, Music, Games or Programs

- Sound must be muted at all times unless permission is obtained from the teacher for instructional purposes.
- Installation of software or apps must be district approved.
- Accessing music, games, or other content is subject to district filtering and must be in school-appropriate

3.6 Home Internet Access

Students are allowed to set up wireless networks on their Chromebooks. This will assist them with Chromebook use while at home. Printing at home will require a wireless printer, proper settings on the Chromebook and the correct apps (not provided by the district).

Student use of the Chromebook will be subject to the NCSD Internet filtering software even when accessing materials on a home connection. The filtering software will ONLY affect NCSD-registered devices and is in line with the NCSD Acceptable Use Policy.

4. Managing Your Files & Saving Your Work

4.1 Saving to the Chromebook/Workspace/Shared Drive

Students will save and access their work in their Google Drive. If there is a malfunction, the student should have an immediate conversation with their teacher(s) to come up with an alternate plan to complete assignment(s).

5. Software on Chromebooks

5.1 Additional Software

Students are only allowed to load approved extensions and apps on their Chromebooks. NCSd will synchronize the Chromebooks so that they contain the extensions and apps required for schoolwork.

6. Privacy

6.1 Privacy

Students may expect privacy from other students with respect to their assigned Chromebook. However, as per the Niskayuna Student Code of Conduct:

"... under the law, items that are school property, such as lockers, desks, computers, and other technological equipment, are subject to searches by school authorities, at any time. School authorities may also search students and/or their belongings where reasonable suspicion of a violation of the Code of Conduct or a violation of the law exists. Searches shall be conducted by an administrator in the presence of another district employee. ... In all cases, the student and parent shall be informed as to the reason for the search."
