

# New Report Card!

Wait...  
What?

# What is being graded?

Well, the big stuff!

- Reading
  - Writing
  - Math
  - Science
  - Social Studies
  - How you work as a student and friend
- 

You already know that though!

So, why all the fuss?

Because...

# So, what is the big deal?

We have new updated report cards! ☒

There is a new(ish) grading scale. ☒

☒ You're working on an end of year goal, not just mastery of a skill.

☒ There are no more paper report cards.

# A new grading scale?

## What does that mean?

Our grades will be based on a 3, 2, or 1 - based on end of year expectations.

## What big change can you expect?

You won't see a 4 on your report card any more.

## 3 - I got it on my own!

I've rocked this skill consistently all on my own.

## 2 - I'm working towards independence

I'm making progress but still need my teacher or a friend sometimes.

## 1 - I'm not there yet

I still need support to put it all together.

## But, I got a 100%?

Congratulations! You rocked a skill your teacher taught you.

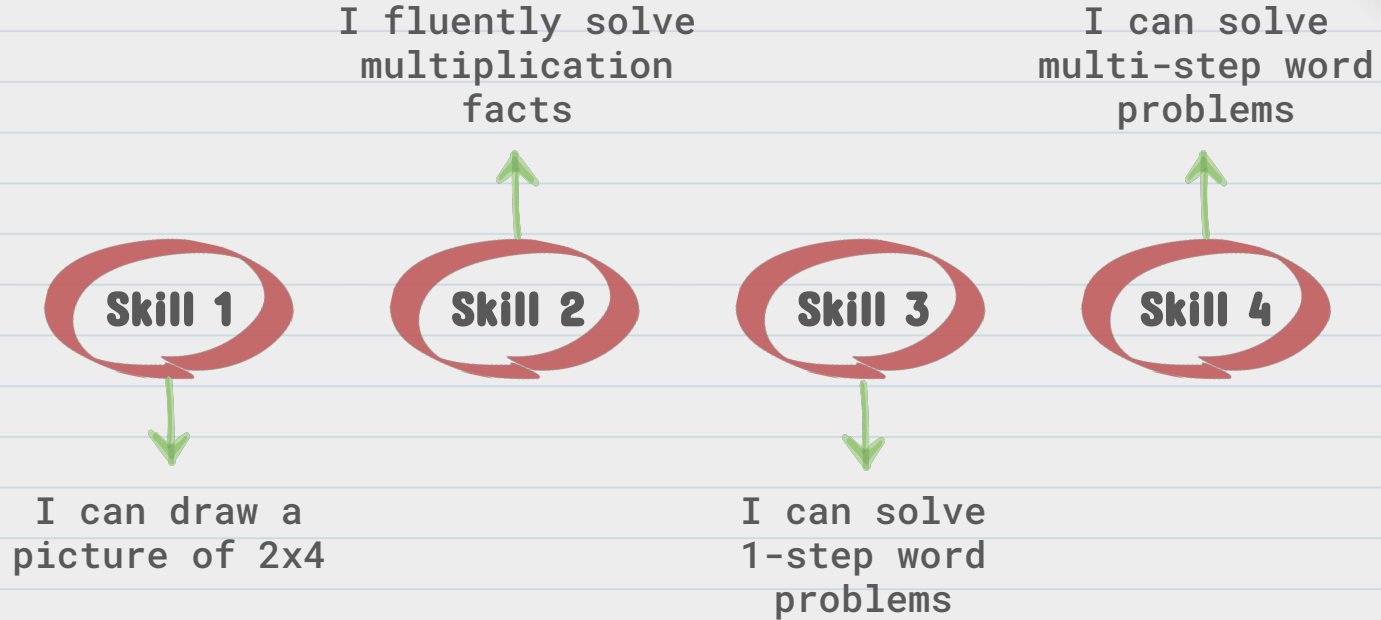

This doesn't always mean you've learned ALL the skills in that unit. You may have more work to do to show you fully understand everything involved in that concept.

You're working towards rocking that BIG concept all on your own. So you may get a 2 because you're still building on that concept.

Let's break that down....

## Let's break it down.

**Will anything feel  
different?**

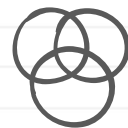

**Have no fear!**

You're still  
going to learn  
TONS of new  
concepts.

You will be  
assessed as the  
year goes on to  
see your growth.

You will be  
supported every  
step of the way!

**Wait!**

## **Where is my envelope?**

We hate to disappoint but there are no more envelopes! You and your family can now access your report card online!

**But, do not FORGET... you're not a grade.**

**Creative**

**Mindful**

**You  
are...**

**Funny**

**Kind**
